

What do I want to learn or understand better?

I wanted to learn how to create a good design and layout for our website.

How can I help someone else, or the entire team, to learn something new?

This week was kind of hard in the amount of work, and I believe to have proved that a positive attitude and using breaks could improve efficiency and problem solving thinking.

What is my contribution towards the team's use of Scrum?

I have taken a more administrative role, making myself responsible for structuring meetings, writing agendas, driving the meeting forward as well as be a positive force to remind about deadlines, which we have not been to good to follow. This had so far had good results.

What is my contribution towards the team's deliveries?

Being sick this week aswell, spending most of time in bed, not too many hours were spent coding. Instead i did what I could regarding the team reflection and planning.
